PUTTING ON THE PRESSURE
This hydraulic forging press, now in production at the Torrance works of Harvey Aluminum, is capable of exerting 8000 tons pressure for forging aluminum parts. Over-all height of the 8000 ton capacity press is 53 feet with 35½ feet above the floor level. In the background is a 4000 ton capacity unit.

Harvey Aluminum Operates 8000-Ton Forging Press

Capable of applying 8000 tons pressure, a new hydraulic forging press is now in production at the Harvey Aluminum plant in Torrance.

Vital precision forgings, needed at key structural points for present and future aircraft and missiles, are being produced on the new press.

These close tolerance type aluminum forgings minimize machining and provide maximum strength to airframe members.

The new 8000 ton unit also offers greater capacity for the production of non-military aluminum forgings such as automobile and truck wheels.

One in a battery of new hydraulic forging presses now in operation at the Los Angeles area facility, Harvey's 8000 ton capacity press enables larger conventional parts and greater precision parts to be forged.

The tremendous pressure exerted is used to attain zero-degree draft angles, thinner webs and ribs, and reduced fil-

Superintendent Calls for Strong Anti-Red Approach in Schools

Communism came in for a blistering attack Monday when Dr. J. H. Hull, superintendent of schools, called for an outspoken anti-Communist approach in classrooms throughout the Torrance Unified School District.

Dr. Hull, speaking before members of the Torrance Educational Advisory Committee, announced that he will declare this a matter of policy throughout the district "unless instructed otherwise by the Board of Education."

Hull began his remarks by saying that he wished to "make a suggestion and ask a question" which he put as follows: "Do we have a right to teach Americanism and Democracy passively? Don't we have a responsibility if we believe in this way of life to teach the values of it and to point out the horrors of Communism?"

Growing Scourge
Fifty years ago, Hull said, Communism was just a flicker in the wilderness. Today there are 900 million Communists. The Communists have the conquest of the world spelled out in blueprints and documents, he went on to say. From Russia they have spread to Asia. From Asia they are going to India and then to Africa by way of the Middle East.

Eventually, the West, and finally America, will be isolated. The Communists use clever bait, the educator went on to say. They speak of peace, but what they mean to say is: let us run things, so there won't be any wars. They speak of co-existence, meaning, keep out of war so the Communists can infiltrate.

Communism, Hull continued, has no respect for human life. **Incompatible Beliefs**
Communists do not believe in the dignity of the individual. Their belief is the opposite of what we believe, Hull said.

Worst of all, he pointed out, Communism is growing and moving. "I can't read this stuff from Hungary and the other countries without feeling that we must tell our children," he exclaimed. "We can't be mild. We must be positive in our approach . . . it's no longer enough just to present the facts to the kids. We must be strong in our anti-Communist approach."

Hull said that five years ago the local school district had a Communist teacher who was subsequently expelled. Since then, every teacher teaching here is carefully screened through state investigating officials before being hired.

Group's Views
After presenting his views, Hull asked for a discussion by members of the TEAC group.

One individual stated that by obtaining the facts about Communism and seeking after Truth, Democracy will only be strengthened, and the decision will be made for Democracy.

When asked at what grade level Communism would be covered, Hull asked, "Is there any grade level at which it shouldn't be covered?"

Hull also said that he did not want to give the impression that the schools have not been stressing these things. He said that he was just asking for a more intensified approach.

A number of individuals expressed the view that it is a

Christmas Gifts Asked For Children At Hospital

Torrance residents will again have a chance to make a lot of children happy at Christmas time this year. As in previous years, the Torrance Press is issuing a call for Christmas gifts for children at Harbor General hospital.

These gifts may now be brought to the Press office, 1406 Cravens avenue. They will be distributed at Christmas by Volunteers for Children, a group of local women, who visit the children's wards at Harbor General hospital every day of the week the year around.

There are two children's wards at the hospital. One is for children from a few hours old to two years. The other includes children from two years old to 13 years.

Gifts may be left at the Torrance Press any time starting today. If the gifts are wrapped, a small note should be attached describing the kind of gift it is and the approximate age group for which it is intended.

Suggested Gifts
Here are some gift suggestions released by the hospital: Suggested items for girls—furniture, costume jewelry (new), toy wrist watches, hair ribbons.

Suggested items for boys—small cars, boats, trucks and airplanes, mechanical toys, toy animals, cowboys, soldiers and so forth.

Children two years and under—rubber dolls and balls, rattles, stuffed soft toys (remove buttons and bells). type educational wooden toys, Pre-school children—Holgate

timekeeping and payroll preparation," he went on. Such a policy can lead to "hair-splitting of fantastic proportions," Stevens said.

lucky thing to be living in America and that this fact should be emphasized strongly.

Communism, one member pointed out, is not a controversial subject. A controversial subject has two sides to it, the individual said. But, there are no two sides to Communism.

It was pointed out that it would be necessary to give teachers full support and backing in the methods used to discuss Communism.

There is a chance that Communism will disintegrate from within, Hull said. "However, if Communism ever achieves its objectives," he warned, "the U. S. will be alone. If we are alone—look out. We will be slaughtered just like the rest of the world. Therefore, we must keep the schools and the rest of the world strong."

Joe Goss To Run For City Council

Joe Goss, field secretary and public relations man for Council President John S. Gibson, for the past five years, today formally announced he would be a candidate for the council seat if vacated by Gibson.

Councilman Gibson has announced that he would relinquish the office to become a candidate for mayor. Filing time for all municipal offices is from January 2 to 7.

In announcing his candidacy, Goss said he would continue to carry out the policies he has helped Gibson establish since 1951.

"It is my intention," he said, "to continue to bring city government to the people of the 15th district through citizen advisory committees and branch council offices. This type of representation has proved its value."

Prior to his appointment as Gibson's aide, Goss served more than 20 years as sports editor and a reporter for harbor area newspapers. His "beat" covered a major portion of the council district.

"That background and my present job, which requires weekly visits to all portions of the 15th district, have afforded me the opportunity to become intimately familiar with the district, the people and their problems," Goss said.

Formation of a district wide "Goss for Council Committee" already has been launched with Fred Fuld, Jr., San Pedro public accountant as director.

Mrs. James Fryback and Mrs. Ben Rusk will be co-chairmen in the Torrance Shoestrung Strip. They will head a committee of more than 25 members pledged to support Goss.

Goss has been a resident of the council district for more than a quarter of a century.

Organ Club
An electric organ club entitled "The Hammond Addicts" has been recently formed for all persons interested in listening and playing the electric organ. At the first organizational meeting, 60 persons were present and Vic Chatten, Torrance was elected president pro-tem.

The answers to everyday insurance problems*
By LES KING

QUESTION: Having read a recent story about a boy on a bicycle seriously injuring an elderly man, I'm wondering if I could get the same kind of Liability insurance on my son's bicycle as I have on my car.

ANSWER: Your own Automobile Liability insurance can be broadened to include your son's bicycle but there are several ways to write the protection. Better see a good agent.

*If you'll address your own insurance questions to this office, we'll try to give you the correct answers and there will be no charge or obligation of any kind.

Firemen Seek Salary Adjustments

Firemen, who stated that much of the time they must substitute for a higher ranking department official during the course of duty, asked for comparable salary adjustments in a request to the City Council.

City Manager George Stevens took strong issue with the request.

"If the provisions of (the resolution) were to apply to all departments, it would cost the taxpayers of the community additional thousands of dollars per month," he pointed out.

"It would be contrary to common accepted practice . . . and create an almost impossible
